AIR RESOURCES BOARD

Presents

ABOVEGROUND STORAGE TANKS, STANDING LOSS CONTROL, PHASE I and II Course #268

Enhanced Vapor Recovery (EVR) is here!

As of January 1st 2009 many new Aboveground Storage Tank (AST) installations were required to have Standing Loss Control (SLC). Starting in July of this year many new AST installations will be required to have a CARB certified Phase I vapor recovery system installed and the four year clock

has started for existing facilities to install SLC. This one day class presents a complete overview of the gasoline vapor recovery program. The history, certification, and testing requirements are presented. Executive orders, state laws including revisions to the equipment defects list, and permit requirements are discussed. The operational theory, the equipment certified, and installation & compliance inspections are all discussed.

May 11, 2010
